

# TTG's DocKeeper™

---

**WE'LL KEEP YOU WHERE YOU BELONG....IN FRONT OF YOUR CUSTOMERS!**

## Forever Marketing™

Your information is programmed by **TTG** into the CD so that every time the homeowner views their closing documents they will have your information at their disposal.

Periodic emails on behalf of **TTG** will be sent to the homeowners reminding them of the mortgage and real estate professionals who helped them get into the home of their dreams.

Our **Doc Keeper** program is the ultimate referral and repeat business portal.

Real Estate & Mortgage Partners will be notified by **TTG** each time the homeowner accesses their closing documents. This allows you to reach out to the homeowner to see if they are entertaining the idea of a new loan program or a new home to suit their needs.

Our **Doc Keeper** system allows homeowners to become eligible for exclusive discounts offered only by partners of our program enabling them to save money when setting up services offered in their area like cable, internet and phone providers.

## Document Management

A Dynamic CD-ROM will be provided to the borrower at the Closing Table AND all Final Documents will be attached Post-Closing

Documents are uploaded by **TTG** which triggers an email to be sent to the homeowners advising them they can now retrieve their closing documents. Effortless organization at its best!

All Documents are able to be retrieved via this Secure, encrypted System which is controlled and tracked by the end user, the homeowner.
